

INTEGRATED CLEANROOM & LABORATORY SOLUTIONS CONTRACTOR PROFILE

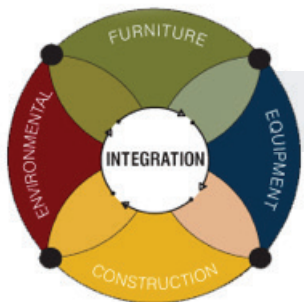

Project Type: **Modular Sterile Laundry Facility**

Project Scope:

Work included the turnkey supply and installation of a 2,500 square foot free standing self supporting steel floor mounted support mezzanine structure to support the high bay (14 feet) placement of facility mechanical systems.

Facility features a linear dual barrier all modular wall system with integral air returns, equipment case openings, open viewing access, product material pass thru, interlocked door systems, structural 2" cleanroom grid populated with terminal ducted HEPA filtration modules, lights, and cleanroom ceiling blanks.

The integral walkable support mezzanine systems houses all system mechanical and electrical interface points, supply and return ducting including placement of the facility custom fabricated air handling system.

COMBINED ENGINEERING SOLUTIONS – ONE CREATIVE VISION
